***Williams Scotsman International, Inc.  
Executive Officers Adopt 10b5-1 Trading Plans***

**Baltimore, MD – March 20, 2006** – Williams Scotsman International, Inc. (NASDAQ: WLSC), a leading provider of modular space solutions, today announced that Gerry Holthaus, Chairman, President and Chief Executive Officer and other executive officers have entered into 10b5-1 trading plans for personal tax, asset diversification and financial planning reasons. These plans were executed during the post initial public offering lock up period, which ends today.

Pursuant to the terms of the trading plans, a maximum of approximately 541,000 shares are expected to be sold, beginning today and through the period ending March 29, 2007. These shares will be acquired through the exercise of employee stock options, which are scheduled to expire on or before March 30, 2007.

Rule 10b5-1 allows corporate officers and directors to adopt written, pre-arranged stock trading plans when they do not have material, non-public information. Using these plans, the executive officers can diversify their investment portfolios, spread stock trades out over an extended period of time to reduce any market impact, and avoid concerns about whether they had material, non-public information when they sold their stock.
